7:15 Fall Online Auction (Bonnie/Allen)

- Date? Possibility of 12/19
- How to do it? Bonnie has inquired about the license. We just need to set the dates and the value
- Walt and Alex will donate trips, PMRL? For stay, rod and reel and extras from SA for the auction

7:25 LMWC- Little Manistee concerns Sean

- Lara Treemore-Spears from Great Lakes Conservation Advisors
- Joyce Durdel- President of LMWCC to present on topic of DNR Natural Rivers program and what has been happening on the Little Manistee
    - Somewhat of a coup at the picnic by people that did not want to see the Little Manistee become part of the DNR Natural Rivers Program. This was approved as a goal as a part of the Watershed Management Plan in 2015 and has been approved by the DNR, EGLE and EPA
        - The bylaws make it very difficult for this group to actually effectively take over the board
    - Opponents of the Natural Rivers Program don't want any government interference and know that there is currently little to no enforcement of the current rules and regulations
    - Current board members are concerned that if the LM doesn't become part of the DNR Natural Rivers Program steelhead egg collection will go down as has happened already according to Mark Tonello (DNR Biologist)
    - Contact Kristin Thomas and Matthias Bonzo for guidance
